ACKNOWLEDGEMENT

Dreams never turn to reality unless a lot of efforts and hard work is put into it and no effort bears fruit in the absence of support and guidance. It takes a lot of effort to work my way through this goal and having something to guide me is always a blessing.

I would like to take this opportunity to thank a few who were closely involved in completing and executing this project. At the outset, I think God almighty for making my endeavor a success. I would like to express my sincere thanks to the Management of Acharya Institute of Technology for providing excellent infrastructure and other faculties, which enabled me to sharpen my skills.

I would like to express deep sense of gratitude to **Dr. Gurunath Rao Vaidya**, Principal for having laid tracks that leads me to a bright future

I express my sincere thanks to **Prof. Ramakrishna C N**, Head of the Department, for providing us with adequate faculties, ways and means by which I was able to complete this project.

I express my sincere gratitude to the Project Guide **Prof. Ravikiran R.K** for his constant support and valuable suggestions without which the successful completion of this project would not have been possible.

I express my immense indebtedness to all the teacher and staff of Dept. of Computer Applications, Acharya Institute of Graduate Studies, for their cooperation and support. At last, I thank all others, and especially my classmates and my family members who in one way or another helped me in the successful completion of this work.

Thank you everyone.

Rahul (R1920706)

ABSTRACT

Due to covid-19 lockdown is imposed and the government needs to authorize the movement of essential services and delivery executives of various service providers (Amazon, 1mg, Flipkart, Zomato, Swiggy, etc.). The project entitled “Lockdown E-Pass System” is a software package, which can be used in Lockdown for managing the pass of people.

Lockdown E-Pass system is a web-based application that will manage the records of pass which is issue by administrative and also help to provide online Lockdown pass to people who need to travel compulsory. Lockdown E-Pass System is an automatic system which delivers data processing in very high speed in systematic manner. **People can visit home page and search pass details by entering their unique pass number.**

This allows government authorities to track and manage the total number of people authorized for movement in their cities and this system will increase efficiency by reducing manual work.
